

Vacancy

Research for a sunny future!

Shape the photovoltaic technology of tomorrow in a young and highly motivated team.

The **International Solar Energy Research Center Konstanz** is an institute for photovoltaic research founded in 2005 with currently 50 employees. We are a young but experienced team of scientists who have emerged from the photovoltaic group of the University of Konstanz. We have state-of-the-art process and characterization equipment. In national and international research projects we work together with the leading international institutes and companies in the photovoltaic industry. For more information, please visit www.isc-konstanz.de.

As soon as possible we desire to fill the vacancy of

an Engineer or a Physicist

The position is a full time position and initially limited to two years with the option for an extension

You will be part of a team of scientists and engineers that conducts research, development and manufacturing for industrial customers. One focus of the work will be passivated emitter and rear (PERC) solar cell processing.

After a training phase you will be responsible for the communication with customers, writing offers, design of experiments and coordination of the scientific and technical team. You will evaluate the experiments in a team and report back to the customers. In addition, you will be responsible for further development of the internal PERC process at ISC Konstanz.

Teamwork and an independent and result-oriented way of working are among your greatest strengths. In addition, you have a high degree of flexibility, readiness and resilience. We expect experience, if possible in an industrial environment, ideally in the production and development of crystalline silicon solar cells. In-depth knowledge of PERC technology is beneficial. A good knowledge of English is required. A solid knowledge of German is desired – or the willingness to learn German as soon as you are here.

The remuneration is based on the provisions of the TV-L. Please send your application with usual documents, preferably by e-mail, to ISC Konstanz e.V., Rudolf-Diesel-Straße 15, 78467 Konstanz; petra.hoffmann@isc-konstanz.de.

For questions, please contact Mr. Rudolf Harney: rudolf.harney@isc-konstanz.de or +49 (0)7531 - 36183 - 25.
