

We are building the place where a livable tomorrow is being made today. Build with us!

For example, by contributing to financing the property or to the construction costs:

Would you like to spread your support over the duration of the project?

■ 10 symbolic square meters of land: **417 euros per month** for the project duration of 24 months

■ A symbolic building block: **625 euros per month** for the project duration of 24 months

We make your commitment visible

All of our supporters will receive a certificate of donation and a contribution receipt for submission to the tax office. If you wish, we will be happy to list you as a donor on our website with your company name and logo. Of course, you can also use our logo and campaign motif in your own communication channels to publicize your contribution.

For donations of 15,000 euros or more, you can request a solar cell for your desk with your company name.

You can be a Progress Maker!

Every donation helps advance our “sunny future” project, support solar energy research in Germany, and safeguard the livelihood of future generations.

You can decide: do you want your company to be a Progress Helper, a Progress Partner, or a Progress Maker?

■ **PROGRESS HELPER:** > for donations of **15,000 euros**

■ **PROGRESS PARTNER:** > for donations of **50,000 euros**

■ **PROGRESS MAKER:** > for donations of **100,000 euros**

Your example of progress – visible to all

Upon request, we will be happy to include your company name and logo in the appropriate supporter category on our website. In addition, you can receive a solar cell for your desk with the name of your company.

To make our supporters visible to all visitors to the new Research Center, we will display solar cells with the names of our larger donors engraved on them in the entrance area. Each Progress Partner will have their own named solar cell. The solar cells for Progress Makers will stand out due to their exceptional size.

We are also happy to communicate the commitment of our Progress Partners and Progress Makers to the media via press releases and, if necessary, press conferences.

We are building the place where the energy transition is becoming reality. Build with us!

For example, by helping to fund an office space, a metrology room, or a process laboratory:

Would you like to spread your support over the duration of the project?

■ Office space: **1,042 euros per month** for the project duration of 24 months

■ Metrology room: **2,083 euros per month** for the project duration of 24 months

■ Process laboratory: **6,250 euros per month** for the project duration of 24 months

We make your commitment visible

All of our supporters will receive a certificate of donation and a contribution receipt for submission to the tax office. If you wish, we will be happy to list you as a donor on our website with your company name and logo. Of course, you can also use our logo and campaign motif in your own communication channels to publicize your contribution.

As a thank you for your contribution to the construction of a room, we will place a solar cell with your company name at the entrance to the corresponding room.

You can be a Progress Maker!

Every donation helps advance our “sunny future” project, support solar energy research in Germany, and safeguard the livelihood of future generations.

You can decide: do you want your company to be a Progress Helper, a Progress Partner, or a Progress Maker?

■ **PROGRESS HELPER:** > for donations of **15,000 euros**

To make our supporters visible to all visitors to the new Research Center, we will display solar cells with the names of our larger donors engraved on them in the entrance area. Each Progress Partner will have their own named solar cell. The solar cells for Progress Makers will stand out due to their exceptional size.

We are also happy to communicate the commitment of our Progress Partners and Progress Makers to the media via press releases and, if necessary, press conferences.

We are building the place where every step brings progress. Build with us!

For example, by funding a new machine, such as a furnace for sintering contacts or a wet-chemical inline system.

■ SINTERING FURNACE:
200,000 euros

■ INLINE SYSTEM:
350,000 euros

Your machine donation is
a vital contribution
to our common goal.

Would you like to spread your support over the duration of the project?

■ Sintering furnace: **8,333 euros per month** for the project duration of 24 months

■ Inline system: **14.583 euros per month** for the project duration of 24 months

We make your commitment visible

All of our supporters will receive a certificate of donation and a contribution receipt for submission to the tax office. If you wish, we will be happy to list you as a donor on our website with your company name and logo. Of course, you can also use our logo and campaign motif in your own communication channels to publicize your contribution.

As a thank you for your machine donation, we will install a large solar cell near the machine, with your company's name engraved on it. If you wish, we can organize a press conference together with you to publicize your commitment and our common cause.

You can be a Progress Maker!

Every donation helps advance our “sunny future” project, support solar energy research in Germany, and safeguard the livelihood of future generations.

You can decide: do you want your company to be a Progress Helper, a Progress Partner, or a Progress Maker?
